ABOUT MYSELF

I am a Computer Science student and aspiring Frontend Developer with hands-on experience in HTML, CSS, JavaScript, React, and Bootstrap. I enjoy building responsive, user-friendly websites and turning ideas into clean and functional interfaces. I also have UX/UI Design skill. I can build beautiful UI with Figma. I have a deep understanding of User experience. I have worked on several personal and practice projects that have helped me improve my frontend development and problem-solving skills. I am eager to gain professional experience, learn from experienced developers, and contribute to a team while continuing to grow as a developer.

EXPERIENCE

TUTOR

Kumon school · Phnom Penh · Cambodia · 2025-11-01 – 2026-06-01

Entry Level · Working Experience

- Prepared and organized student worksheets for daily learning activities.
- Taught Mathematics and English to students of different learning levels using the Kumon method.
- Evaluated student's completed worksheets and provided constructive feedback to improve their understanding and performance.
- Monitored students' learning progress and offered individual guidance to help them achieve their academic goals.
- Communicated effectively with students in English, creating a supportive and engaging learning environment.
- Developed strong communication, teaching, time management, and interpersonal skills through daily interaction with students.

EDUCATION

COMPUTER SCIENCE · BACHELOR

The University of Cambodia (UC) · Phnom Penh · Cambodia · 2025-11-01 – Present

I am currently pursuing a Bachelor's degree in Computer Science at The University of Cambodia. Through my studies, I have developed a foundation in programming, web development, databases, software development, and problem-solving. I have also worked on practical projects that have helped me apply my technical knowledge and develop my skills in frontend development.
